## An important message from StepManiaOnline.net!

---

This package is a truncated version of a collection of singles, which can be found [here](#). This package has been created and mirrored by SMO, so as to aid in helping users find all ranked content within Eterna Online, in an easy and less confusing manner. Please note that this package only has the files which are ranked (15), which can be viewed [here](#).

Going forward, Eterna will only rank packs which are hosted on SMO, to prevent the arising of more issues such as this. However, since 15 files is more than enough to meet the technical definition of a pack, SMO has decided to treat it as one.
